

## Studentcounselling BAFöG & Social Affairs AStA of the Europa-Uni Flensburg Consulting on studying and disability

### BAföG

Students with a disability are entitled to BAFöG:

**allowances on the income and assets of the trainee**

**allowances on spouse's/life partner's income**

**Support beyond the maximum duration of support**

When calculating the income of parents, spouse / life partner and the income of the trainee in addition to BAFöG, additional allowances are taken into account. This also applies to the trainee's assets. In connection with a disability, disabilities of relatives, parents, spouses and other dependent family members are considered in the same way as a disability of the trainee.

If the maximum duration of support is exceeded due to the restrictions imposed by a recognised disability, support will be provided for a reasonable period of time beyond the maximum duration of support. In this case, the payment is made as a full subsidy without repayment obligation as a result of a disability. A complete inability to study due to illness may not exceed 3 months. In case of longer periods of absence, a semester of leave must be applied for. The BAFöG office must be informed of this. During the semester of leave of absence, there is no support according to BAFöG. ALG II benefits can be applied for. Please contact the counselling service with any questions. The counselling is subject to confidentiality.

**Academic achievements**

If a disability leads to disadvantages in the completion of study achievements and examinations, a modification of the required performance can be requested. Chronic illnesses with an episodic course are equal to a disability (see also Information on studies and illness). Modifications can be, for example: in writing instead of orally, examination in a separate room, extension of processing times. It must be clarified in the specific case which modification is appropriate. If you wish to apply for compensation for disadvantages, please contact the responsible examination board. Clarification in good time is necessary, as recognition is no longer given after the performance has been rendered.

Information of the EUF about studying with handicap can be found on the homepage of the university on page no. 24274.

If you have any questions about studying with a handicap, please use the counselling service. The counselling is subject to the obligation of secrecy.
